

- **FOODPRO HYDRAULIC SERIES**

**FOODPRO HYDRAULIC SERIES** are premium food grade, ISO VG 32, 46, 68 & 100 antiwear hydraulic oils suitable for use in both low and high pressure hydraulic systems employed in the food processing industry. They have been formulated to meet the performance required by most hydraulic pump makers such as Denison and Vickers and will provide outstanding wear protection for pumps, bearings and lightly loaded gears. The formulations have been registered by NSF (Category H-1) and Halal for use as lubricants with incidental contact with food.
