

- **INDPRO ROCK DRILL SERIES**

INDPRO ROCK DRILL SERIES consists of 4 premium ISO VG 46, 100, 150 & 320 oils specifically designed for lubrication of all types air tools and pneumatic drilling equipment. They possess excellent anti-wear, oxidation and rust protection properties and are ashless to prevent deposit formation. In addition they possess low fog or mist properties and not easily washed away. **Indpro Rock Drill Oil 46** is recommended for light percussion air tools such as vane & piston rotary types, rivet guns, an air cylinder equipment. **Indpro Rock Drill Oil 100** is suitable medium size rock drills such as road & pavement breakers and is particularly recommended for chain saw applications. **Indpro Rock Drill Oils 150 & 320** are recommended for heavy duty and/or high temperature conditions.
